

Nothing About US Without Us

Five principles for managing the next phase of the Covid-19 pandemic

For the full statements and downloadable images go to:
<https://bit.ly/2ZGRzPM>

① Actively engage with those most affected by the change

② Make everyone matter, leave no one behind

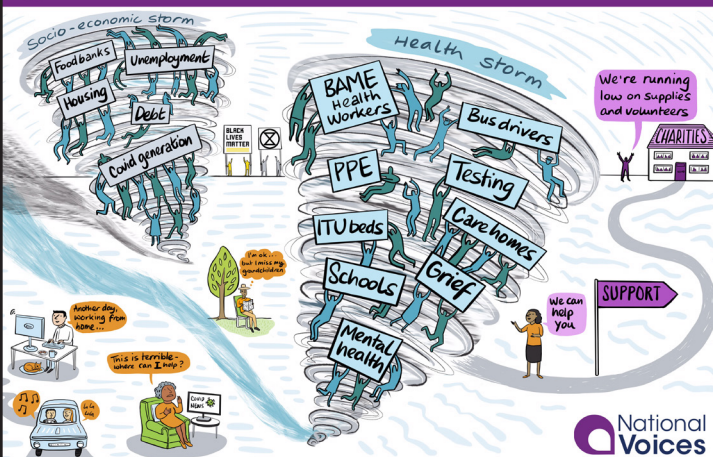

Before ...

... & now

③ Confront inequality head-on

④ Recognize people, not categories, by strengthening personalised care

22yr old female	Autistic	Student				
58yr old male	Diabetic	Business owner				
37yr old female	Sickle cell patient	Teacher				

⑤ Value health, care and support equally
